JULY PROGRAMS

JULY 1 - SCIENCE AND NATURE GAMES

Play exciting board, picture matching, lotto, puzzles, card games and more. Have fun with Sue and Fred Herrmann and Linda Burroughs. Make new friends.

JULY 8 - PAPER AIRPLANES

Learn the science of paper airplanes. What makes them fly? What is Aerodynamics? Make and decorate your own paper airplanes using the origami technique called aerogami. Fly them with Virginia Tomat & Richard Kelly.

JULY 15 - EARLY FARM IRON

Learn about the iron farm tools from our region from local naturalists Nick and Dave Bosted.

JULY 22 - VERMICOMPOSTING

Do you like worms? Join us as we discuss those wonderful wigglers and the role they play in our environment. Learn how to set up your own worm farm. With Belinda and Jessica Silver and worms!

JULY 29 - BEES

Learn about bees and their society from Tahirih and Brett Smith. What does the queen do? Who are the worker-drones? Visit our own hives outside by the Butterfly Garden. Taste our honey.

AUGUST PROGRAMS

AUGUST 5 - THE WONDER OF NATURE

Enjoy and share the wonder of nature with Sonja Michaluk.

AUGUST 12 - GEOCACHING

Geocaching is a treasure hunt in nature that is suitable for any age. Come and learn from Brittany Scott how to hunt for treasure, use a compass and a GPS, get fit and get out in nature with this fun family activity. We will be going outside, weather permitting, so wear appropriate shoes and bring a GPS or smart phone with GPS, if you have one.

AUGUST 19 - ART NIGHT

Eldridge Park Artists Susan Kiley and Toj Colavita are back again to help you create a wonderful piece of art. All age artists are welcome.

AUGUST 26 - CAMPFIRE TALES

Sit around a campfire with Master Storyteller Mike Erdie. Watch the flames and listen to his fascinating tales. Tell a story of your own...
