KEEPING AN EYE ON NATURE

2017 SUMMER FAMILY NIGHTS

WHAT WILL YOUR FAMILY BE DISCOVERING THIS SUMMER?

7 PM RAIN OR SHINE, FREE TO THE PUBLIC

JULY PROGRAMS

July 11 – Craft from the Meadow and Woods

Sonja Michaluk with sister Charlotte will lead this nature craft program with material from the LNC meadow and woods. Children will make their own soap with botanicals.

July 18 – The Webs We Weave

Q: What does a spider web and a pair of jeans have in common? A: They are both made of woven materials. Come and join Belinda Silver, a local resident, and explore the wonderful world of weaving. We will learn various methods of weaving, either with or without looms, and discuss the different types of materials that can be woven. We will round out our evening with hands-on weaving.

July 25 – Meadow Bouquets Art + Science.

David and Nicholas Bosted, with the children, will pick flowers and seed pods from the summer meadow, study them, and arrange the flowers and pods into lovely bouquets.

AUGUST PROGRAMS

August 1 – Musical Instruments from Recycled Material

Jeanne Muzi, a teacher at the Lawrence School District, will be showing the kids how to make musical instruments from recycled materials and create the RRR band. All ages welcome!

August 8 – Kids Art Night

Eldridge Park Artists Susan Kiley Colavita, Anthony Colavita, and Anne Demarais will help you to be creative while you make fantastic nature art.

August 15 – Bird nesting

John Emmons will teach the children how to make Bird nests from material found in the meadow.

August 22 – Basic wreath making

Christina Winka, a local resident, has been making crafts with dried flowers and fruits for over 20 years. Christina will teach the children how to create a wreath with dry flowers and other materials.

August 29 – Campfire

Master Storyteller Mike Erdie will be telling stories around the campfire. Fish tales and ghost stories. Join us to roast some marshmallows while you listen to Mike's stories, or you can tell one of your own.
